## 2 Introduction

Netgíró payment plugin provides simple and easy solution for integrating Netgíró payment system with VirtueMart (web-shop for Joomla).

### 3 Installation

Plugin installation is the same as for any Joomla plugin. Plugin requirements is to have VirtueMart already installed and configured. VirtueMart and all of the documentation for installing and configuring can be found here <http://virtuemart.net/>

#### 3.1 Plugin Configuration

After installation we need to publish and configure plugin.

##### 3.1.1 Publish and Configuration of the plugin

Go to:

Components → VirtueMart → Payment methods

Then click new button for adding new payment method. You should screen as below.

Payment Method Information

English (United Kingdom)

**Payment Method**

Payment Name: Netgíró reikningur

Published: ☐ No ☒ Yes

Payment Description: Reikningur er sendur í netbanka, greiða þarf innan 14 daga.

Payment Method: VMPAYMENT\_NETGIRO

Shopper Group: Available for all

List Order: 0

Netgíró payment method supports 3 types of payments:

- Netgíró reikningur - 14 day payment
- Netgíró raðgreiðslur - Partial payments
- Netgíró vaxtalausar raðgreiðslur - Partial payments without interest

### 3.1.1.1 Payment Method Information

- **Payment name:** Defines plugin name that will be presented to the user. Set this to Netgíró
- **Published:** Defines if the payment method is published or not.
- **Description:** Defines plugin description that will be presented to the user
- **Payment Method:** From the dropdown list choose VMPAYMENT\_NETGIRO. If you can't see it in the drop down list please make sure you have enabled it under the Extension -> Plug-in Manager.
- **Shopper Group:** Defines for whom this payment method will be available, leave this field as it is.
- **List Order:** Defines the order of the payment methods.

### 3.1.1.2 Configuration

- **14 days payment:** This is default payment option
- **Partial Payments:** Enable or disable partial payments.
- **Partial Payments without interest:** Enable or disable partial payments without interest.
- **Simulation with a Test-Account:** You can choose here the environment to use. Test is used for testing the Netgíró payment method with a test account, so that you can check if your parameters are right and see if data are transmitted. This environment is used during the test phase and transactions will not be credited, once your method is rightly configured, you can switch to the Production/Live mode with your real account. More about Test account  
<https://www.Netgíró.is/Assistance/Documentation>
- **Application Id:** Your Netgíró Merchant identifier.
- **Secret Key:** Your Netgíró Secret Key.
- **Max number of installments:** Defines what is maximum number of installments in case of partial payment(integer). (2-12)
- **Return to the shop/order status:** Define the order statuses for pending, successful and failed transactions. We recommend leaving these fields as they are.

Test data:

- **Application Id:** 881E674F-7891-4C20-AFD8-56FE2624C4B5
- **Secret Key:**  
YCFd6hiA8lUjZeJVclF/LhRXO4wTDxY0JhOXvQZwnMSiNynSxmNIMjMf1HHwdV6cMN48NX3ZipA9q  
9hLPb9C1ZlzMh5dvELPAHceiu7LbZzmIAGeOf/OUaDrk2Zq2dbGacIAzU6yyk4KmOXRaSLi8KW8t3kr  
dQsX7Ecm8Qunc/A=

Note: Payment plugin won't be presented in case of empty Application Id and/or Secret Key. Or in case at least one payment option is not set to yes.

## 3.2 VirtueMart configuration

### 3.2.1 Currency

Netgíró payment plugin supports only Icelandic króna (ISK) for the currency. In order for the plugin to work and to be presented to the customer as a payment method VirtueMart shop has to be configured to use ISK for currency.

### 3.2.2 Email

Netgíró plugin sends notification emails after successful payment. Email need to be enabled and configured correctly.

### 3.2.3 Shipping

VirtueMart need to have configured shipment plugin in order to work. In case you don't have shipment or you just want to test payment method you can use this virtual shipment plugin

<http://www.joomlaproduction.com/index.php/Plugins/vm-virtual-delivery.html>

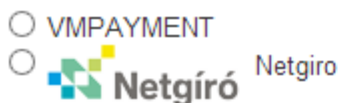

## 4 Plugin Workflow

If everything is configured correctly Netgíró should be presented as a possible payment method in our shopping cart as shown in image below.

### Please select a payment method

Save

Cancel

After selecting payment method you should see your cart with selected payment method as shown in image below

Name	SKU	Price:	Quantity / Update	Tax	Discount	Total
<a href="#">Product 1</a>	product_1	1500,00 kr	5  			7500,00 kr
Product prices result						7500,00 kr
No shipment There is no shipment.						
 Netgiro						
Total:						0,00 kr
Total:						7500,00 kr

Notes and special requests

☐  [Click here to read terms of service and check the box to accept them.](#)

Confirm Purchase

After proceeding with payment user will be presented with the Netgíró payment options, based on settings configuration

Thank you for your order!

<input checked="" type="radio"/>	<b>Netgíró reikningur</b> Reikningur er sendur í netbanka, greiða þarf innan 14 daga.	
<input type="radio"/>	<b>Netgíró raðgreiðslur</b> Greiða fer fram í öruggu vefsvæði Netgíró.	
<input type="radio"/>	<b>Netgíró vaxtalausar raðgreiðslur</b> Greiða fer fram í öruggu vefsvæði Netgíró.	

Checkout with Netgíró
